Test Cases for Use Case: Manages Maintenance Modules

Introduction:

This document provides an overview of the test case, ***Manage food deals, airlines, freebies, time, tour type and transport service*** or simply the maintenance modules***.***

Test Case Group Number:	3			
Test Case Name:	Manage Maintenance Modules			
Test Case Reference:	Use Case: Manage Maintenance Modules(Backend)			
Test Case Priority:	High			
Test Case Preconditions:				
⮚ Only the admin can create, update and delete records from the maintenance modules.				

TC ID	Condition Being Tested	Expected Output	Observed Output	Verdict
2.1 Manage Food Deals				
BE-FDCTC1	Displays create new food deal form.	Displays food deal form which includes: ⮚ Food Deal Name ⮚ Food Deal Description	Does as expected	Pass
BE-FDCTC2	Check uniqueness of deal name.	Displays notification if the deal name is already taken.	Does as expected	Pass
BE-FDCTC3	Check for empty fields	System will not accept empty fields and will return a notification.	Does as expected	Pass

BE-FDVTC4	Display manage food deals page	Displays grid table of food deals and create new food deal button.	Does as expected	Pass
BE-FDVTC5	Display each food deal information	Display food deal information after clicking the view button in the left side of the grid table of the chosen data.	Does as expected	Pass
BE-FDUTC1	Display food deal update form	Displays update form with original values after clicking 'update' button.	Does as expected	Pass
BE-FDUTC2	Check uniqueness of deal name.	Displays notification if the deal name is already taken.	Does as expected	Pass
BE-FDUTC3	Check for empty fields	System will not accept empty fields and will return a notification.	Does as expected	Pass
BE-FDUTC4	Delete food deal	Deleted food deal will be removed from the database after clicking the 'Delete' button.	Does as expected	Pass
2.2 Manage Airlines				
BE-ALCTC1	Displays create new airline record form.	Displays airline record form which includes: ➢ Airline Name	Does as expected	Pass
BE-ALCTC2	Check uniqueness of airline name.	Displays notification if the airline name is already taken.	Does as expected	Pass
BE-ALCTC3	Check for empty fields	System will not accept empty fields and will return a notification.	Does as expected	Pass
BE-ALVTC4	Display manage airline page	Displays grid table of airline records and create new airline button.	Does as expected	Pass
BE-ALVTC5	Display each airline information	Display airline information after clicking the view button in the left side of the grid table of the chosen data.	Does as expected	Pass
BE-ALUTC1	Display airline record update form	Displays update form with original values after clicking 'update' button.	Does as expected	Pass
BE-ALUTC2	Check uniqueness of deal airline.	Displays notification if the airline name is already taken.	Does as expected	Pass
BE-ALUTC3	Check for empty fields	System will not accept empty fields and will return a notification.	Does as expected	Pass

BE-ALUTC4	Delete airline record	Deleted hotel record will be removed from the database after clicking the 'Delete' button.	Does as expected	Pass
2.3 Manage Freebies				
BE-FRCTC1	Displays create freebies record	Displays contact number record form which includes: 　➢　Freebies Name 　➢　Freebies Description	Does as expected	Pass
BE-FRCTC2	Check uniqueness of freebie record.	Displays notification if the record is already taken.	Does as expected	Pass
BE-CNCTC3	Check for empty fields	System will not accept empty fields and will return a notification.	Does as expected	Pass
BE-CNVTC4	Display manage freebie page	Displays grid table of freebie records and create new record button.	Does as expected	Pass
BE-CNVTC5	Display each freebie information	Display freebie information after clicking the view button in the left side of the grid table of the chosen data.	Does as expected	Pass
BE-CNUTC1	Display freebie record update form	Displays update form with original values after clicking 'update' button.	Does as expected	Pass
BE-CNUTC2	Check uniqueness of freebie record.	Displays notification if the freebie record is already taken.	Does as expected	Pass
BE-CNUTC3	Check for empty fields	System will not accept empty fields and will return a notification.	Does as expected	Pass
BE-CNUTC4	Delete freebie record	Deleted freebie record will be removed from the database after clicking the 'Delete' button.	Does as expected	Pass
2.4 Manage Time				
BE-TMCTC1	Displays create time record form	Displays time record form which includes: 　➢　Time	Does as expected	Pass

		➢ Description		
BE-TMCTC2	Check uniqueness of time record.	Displays notification if the record is already taken.	Does as expected	Pass
BE-TMCTC3	Check for empty fields	System will not accept empty fields and will return a notification.	Does as expected	Pass
BE-TMVTC4	Display manage time page	Displays grid table of time records and create new record r button.	Does as expected	Pass
BE-TMVTC5	Display each time information	Display time information after clicking the view button in the left side of the grid table of the chosen data.	Does as expected	Pass
BE-TMUTC1	Display time record update form	Displays update form with original values after clicking 'update' button.	Does as expected	Pass
BE-TMUTC2	Check uniqueness of time record.	Displays notification if the record is already taken.	Does as expected	Pass
BE-TMUTC3	Check for empty fields	System will not accept empty fields and will return a notification.	Does as expected	Pass
BE-TMUTC4	Delete time record	Deleted contact number record will be removed from the database after clicking the 'Delete' button.	Does as expected	Pass
2.5 Manage Tour Type				
BE-TTCTC1	Displays create tour type record form	Displays tour type record form which includes: ➢ Tour Name ➢ Tour Description	Does as expected	Pass
BE-TTCTC2	Check uniqueness of tour type record.	Displays notification if the record is already taken.	Does as expected	Pass
BE-TTCTC3	Check for empty fields	System will not accept empty fields and will return a notification.	Does as expected	Pass
BE-TTVTC4	Display manage tour type page	Displays grid table of tour type records and create new record button.	Does as expected	Pass

BE-TTVTC5	Display each tour type information	Display tour type information after clicking the view button in the left side of the grid table of the chosen data.	Does as expected	Pass
BE-TTUTC1	Display tour type record update form	Displays update form with original values after clicking 'update' button.	Does as expected	Pass
BE-TTUTC2	Check uniqueness of tour type record.	Displays notification if the record is already taken.	Does as expected	Pass
BE-TTUTC3	Check for empty fields	System will not accept empty fields and will return a notification.	Does as expected	Pass
BE-TTUTC4	Delete tour type record	Deleted tour type r record will be removed from the database after clicking the 'Delete' button.	Does as expected	Pass
2.6 Manage Transport Service				
BE-TSCTC1	Displays create transport service record form	Displays transport service record form which includes: ⟩ Transport Type ⟩ Transport Description	Does as expected	Pass
BE-TSCTC2	Check uniqueness of transport service record.	Displays notification if the record is already taken.	Does as expected	Pass
BE-TSCTC3	Check for empty fields	System will not accept empty fields and will return a notification.	Does as expected	Pass
BE-TSVTC4	Display manage transport service page	Displays grid table of transport service records and create new record button.	Does as expected	Pass
BE-TSVTC5	Display each transport service information	Display transport service information after clicking the view button in the left side of the grid table of the chosen data.	Does as expected	Pass
BE-TSUTC1	Display transport service record update form	Displays update form with original values after clicking 'update' button.	Does as expected	Pass
BE-TSUTC2	Check uniqueness of transport service record.	Displays notification if the record is already taken.	Does as expected	Pass

| BE-TSUTC3 | Check for empty fields | System will not accept empty fields and will return a notification. | Does as expected | Pass |
| BE-TSUTC4 | Delete transport service record | Deleted tour type r record will be removed from the database after clicking the 'Delete' button. | Does as expected | Pass |

Test Cases for Use Case: Confirms Visa Consultation Appointment

Introduction:

This document provides an overview of the test case, ***Confirms Visa Consultation Appointment,*** wherein the admin confirms the appointment schedule made when the client physically arrives in the office or payment has been made.

Test Case Group Number:	4			
Test Case Name:	Confirm Visa Consultation Appointment			
Test Case Reference:	Use Case: Confirms Visa Consultation Appointment (Backend)			
Test Case Priority:	High			
Test Case Preconditions:				
➢ Only the admin can confirm the schedule/appointment				

TC ID	Condition Being Tested	Expected Output	Observed Output	Verdict
BE-VCCTC1	Displays the confirm button	Confirm button is displayed in the update page of the chosen record	Does as expected	**Pass**
BE-VCCTC2	Changing Appointment Status	Status of the record should be changed to "Confirmed" after clicking the confirm button.	Does as expected	**Pass**

Remarks

Button is not labeled as 'confirm', but as set payment – which is a bit misleading for tester, nevertheless, it has been clarified by developers

Note: This module is not yet complete and is still in development.
